RECOMMENDATION LETTER

Marko Razum

Zagreb, 15 September 2026

To whom it may concern,

I am happy to recommend Marko Razum, as a Senior Product Designer I have worked with over the past few years.

Marko approaches design from a product perspective. He takes the time to understand the problem and the goal behind a request before he starts designing, and he is comfortable discussing trade-offs openly. His decisions are grounded in what the product needs, not only in how it looks.

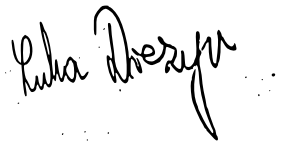

He is also a designer who is easy to build from. His work is well structured and he thinks through states and edge cases. He communicates his design choices clearly to product managers, engineers and clients alike.

His craft is solid, with a good sense for hierarchy, typography and interaction detail. He is calm under time pressure and honest about what can realistically be done.

I would gladly recommend Marko to any team looking for a senior product designer who understands both design and how products get built. I am happy to be contacted for any further information.

Best regards,

Luka Drezga
Head of Delivery, Ars Futura
